ADpma, LLC is committed to providing the airline industry with cost effective PMA solutions through its offering of quality parts and technical support. Our parts are designed and tested utilizing the latest technologies and are produced with state of the art manufacturing equipment and processes. The collective disciplines employed by the engineering team at ADpma are essential to inspiring and delivering innovative solutions and the highest level of service to our customers. Today, airline operators and repair stations worldwide are realizing the following benefits from their use of our FAA approved parts, which we've designed and manufactured specifically for numerous aircraft brake assemblies:

- **Superior products** designed to meet or exceed customer performance and quality requirements
- More effective **PMA solutions** that deliver operational transparency for end users
- Significant **cost reductions** from OEM pricing and total life cycle costs
- Achievement of **tangible** operational and financial benefits
- **Assurance** that advertised products are in stock and available for immediate delivery
- PMA's backed by a **warranty** designed to exceed the OEM's standard, preserving the customer's initial cost savings throughout the part's expected service life
- **Product support** that is based on decades of experience in airline operations and high tech manufacturing
